

FLOORING SOLUTIONS FOR EDUCATION

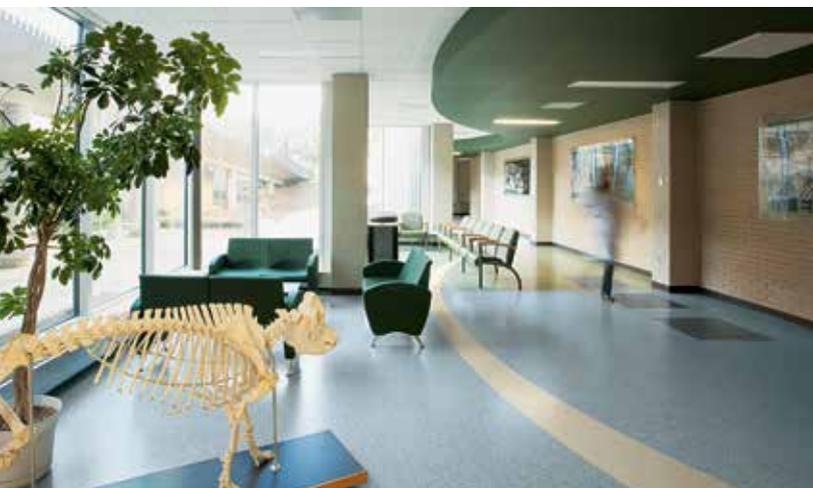

HIGHER EDUCATION

The flexibility, durability and style to deliver maximum value

The face of higher education is transforming. With intense competition for the best students and faculty, colleges and universities have found that facility design is one of the biggest factors impacting their image and ability to recruit. This has caused a movement away from traditional institutional design to more sophisticated spaces. Meanwhile, technology's impact on how and where students learn has led to a need for maximum flexibility in facility design.

Underneath it all, flooring remains a high-impact surface that must not only look inviting, but also be an investment you can trust to maintain its original beauty through years of use, with minimal effort spent on cleaning, maintenance and repair.

The Promise Behind the Armstrong Name

The fact that higher education facilities demand so much from floors is why so many professionals choose, specify and trust Armstrong® products for everything from lecture halls and labs to dorms and dining halls. Our long history of providing products that do what we say they will do, and standing behind that promise, is the foundation of the Armstrong brand.

The Right Floor for Your Space

Armstrong offers a variety of choices designed to create beautiful, comfortable spaces for students to learn and to live. The Armstrong portfolio is packed with high-performance products suited to every space on campus, offering:

- Finishes that protect against scuffs, scratches and heavy foot traffic
- Colors and patterns that disguise scuffs
- Durability and resistance to indentations from chairs, desks, tables and other heavy objects
- Innovative options like Flip® spray adhesive and the I-Set® Installation System to minimize the installation time and costs associated with regular updates
- Sustainable choices, including linoleum and the industry's only bio-flooring tile made with rapidly renewable resources
- Low VOC options that are FloorScore® certified and meet requirements of CDPH Standard Method V1.1-2010, compliant with LEED® EQ Credit 4

The right choice for your space depends on your budget considerations as well as performance expectations. The following Armstrong flooring collections are best suited to higher education facilities.

Armstrong floors provide the looks and the performance you depend on to create inspiring spaces in your education facility. Discuss your project with your Armstrong representative and use this convenient reference to make notes on the product lines and colors that inspire you.

Classrooms & Lecture Halls

Armstrong® floors feature designs to help create an optimal learning environment while offering the durability to withstand the frequent reconfiguration that occurs in today's flexible classroom spaces.

Classrooms need

- Indentation resistance
- Scratch and scuff resistance
- Coordination with other interior finishes
- Easy maintenance
- Sustainability/Low VOC emissions
- Long life

Top flooring choices

- Linoleum
- Bio-Flooring
- Vinyl Composition Tile

Notes: _____

Corridors

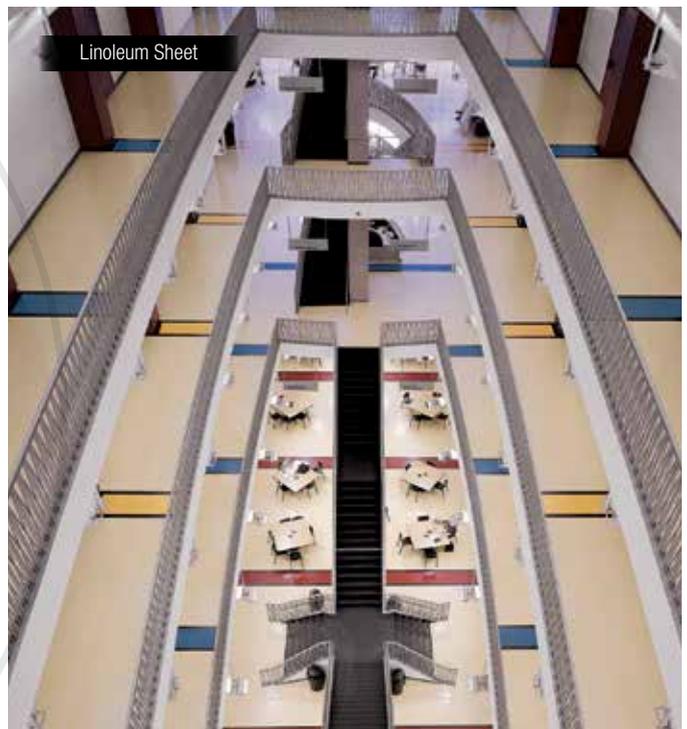

Armstrong options for corridors offer coordinating colors and patterns that can work together to support everything from wayfinding to school spirit, all while standing up to a steady flow of students for years to come.

Corridors need

- Resistance to heavy foot traffic and rolling loads
- Scratch and scuff resistance
- Long life
- Easy maintenance
- Variety of colors, patterns to facilitate wayfinding

Top flooring choices

- Linoleum
- Luxury Vinyl Tile
- Bio-Flooring
- Vinyl Composition Tile

Notes: _____

Dining Halls

The constant presence of food and beverages, as well as tables, chairs and plenty of foot traffic, requires a unique combination of high durability and low maintenance, while the need for a comfortable space to enjoy meals makes design options an equally high priority.

Dining Halls need

- Warm designs that don't feel institutional
- Stain resistance
- Scratch, scuff and indentation resistance
- Easy maintenance

Top flooring choices

- Homogeneous Sheet Vinyl
- Heterogeneous Sheet Vinyl
- Inlaid Sheet Vinyl
- Linoleum
- Luxury Vinyl Tile

Notes: _____

Libraries

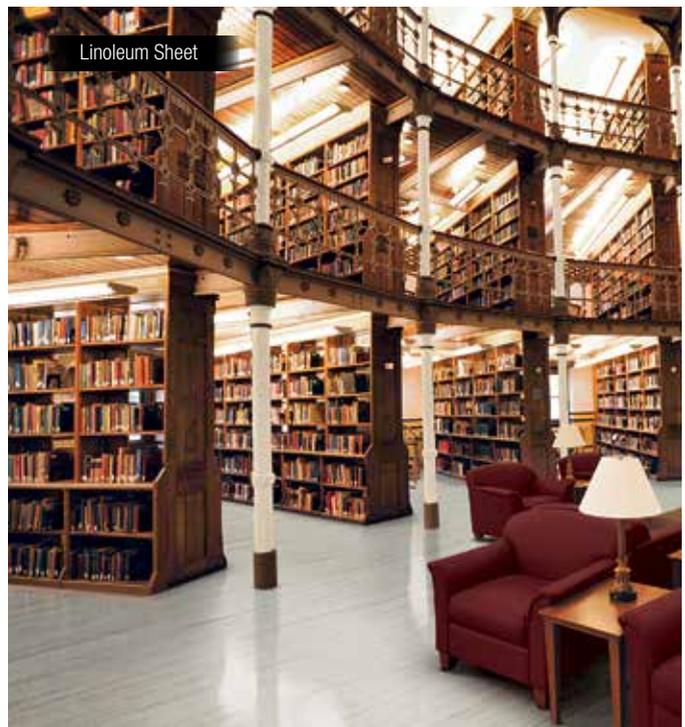

Moving from book repositories to multifunctional student information centers, libraries have evolved dramatically with technology. But the need for a calm and comfortable space for study and group learning remains.

Libraries need

- Wayfinding and visual distinction of resource areas
- Easy maintenance
- Calming colors and patterns
- Long life

Top flooring choices

- Homogeneous Sheet Vinyl
- Heterogeneous Sheet Vinyl
- Inlaid Sheet Vinyl
- Linoleum
- Luxury Vinyl Tile
- Laminate

Notes: _____

Laboratories

From Chemistry 101 to full-scale university medical research, laboratories can be a harsh environment for floors. Armstrong solutions stand up to the rigors of chemical, biological and physical science labs, including options for aseptic spaces.

Laboratories need

- Chemical and stain resistance
- Ability to be heat welded and flash covered
- Long life
- Quick and easy maintenance

Top flooring choices

- Homogeneous Sheet Vinyl
- Heterogeneous Sheet Vinyl
- Inlaid Sheet Vinyl
- Linoleum
- Bio-Flooring
- Vinyl Composition Tile

Notes: _____

Student Unions

As a must-see stop on every potential student's tour, the student union has to make a first-rate first impression. That requires flooring options that not only look beautiful to start, but stay beautiful without costly or time-intensive maintenance.

Student Unions need

- Attractive, upscale design
- Durability
- Efficient maintenance
- Sustainability/Low VOC emissions

Top flooring choices

- Homogeneous Sheet Vinyl
- Heterogeneous Sheet Vinyl
- Inlaid Sheet Vinyl
- Linoleum
- Luxury Vinyl Tile

Notes: _____

Luxury Vinyl Tile

Notes: _____

Residence Halls

Students' home away from home needs to create a sense of comfort and livability. Armstrong options for dorm rooms and common areas offer long-lasting floors with a distinctly residential look.

Residence Halls need

- Warm, homelike environment
- Long life
- Efficient maintenance
- Sustainability

Top flooring choices

- Luxury Vinyl Tile
- Homogeneous Sheet Vinyl
- Heterogeneous Sheet Vinyl
- Inlaid Sheet Vinyl
- Laminate
- Hardwood
- Vinyl Composition Tile

Administration Offices

Home to multiple departments, these busy areas must look their best for students, faculty, staff and visitors. Armstrong has a broad selection of colors and designs to work with any school's aesthetic and look great through years of rolling chairs, moving desks, heavy office furniture and plenty of foot traffic.

Administration Offices need

- Scratch, scuff and indentation resistance
- Resistance to heavy foot traffic, casters and other rolling loads
- Attractive designs that fit the school's image
- Styles that stay looking new longer
- Low maintenance

Top flooring choices

- Homogeneous Sheet Vinyl
- Heterogeneous Sheet Vinyl
- Inlaid Sheet Vinyl
- Laminate
- Luxury Vinyl Tile

Heterogeneous Sheet Vinyl
