

HARDWOOD

BENTLEY PREMIER

European planks in wide widths and long lengths. Wire-brushed open grain exposes the true beauty of the White Oak species. Each plank is carefully beveled, sanded, stained and finished with our durable Maximus Aluminum Oxide Finish. Bentley is our clearest grade of White Oak flooring, exhibiting clean flowing grain without the rustic knots, mineral and splits found in many wide plank offerings. Contemporary or traditional, formal or casual, Bentley is one our most versatile collections.
