- i4F Triple Lock advanced locking system with push down technology for 30% faster installations that help save time & money
- 5 pattern repeat
- 9” wide with 5’ lengths for exceptional value
- Cut & Painted beveled edges
- 5 Color Patterns Available
- Green Guard Gold & Floor Score Certified

**Note:** For this product, we focused on making something truly unique and 100% exclusive to the Adleta brand. This collection is packed with all the bells & whistles necessary to give it a competitive advantage in the SPC category. With the direct press EIR embossing and high-resolution imaging, Hickory Select is designed to mimic the look and feel of one of the most prolific selling species in the Texas market. The 9” wide x 5’ long planks make it wider and longer than other products. Plus, the i4F locking system is one of the most advanced locking systems currently available in the market, and provides the installer with the ability to get the job done quickly. It also comes with one of the best and most dense IXPE pads in the market to minimize deflection from the wider spans of the 9” wide planks.
