- All films are 100% exclusive High Resolution Images, which provides the most realistic appearance available. (NOT FREE MARKET PRINTS)
- 1.0mm IXPE attached pad that is formaldehyde free, waterproof, and will help prevent telegraphing from below
- i4F Triple Lock advanced locking system with push down technology for 30% faster installations that help save time & money
- 8+ pattern repeat
- 9” wide with 5’ lengths for exceptional value
- Cut & Painted beveled edges
- 6 Color Patterns Available
- Green Guard Gold & Floor Score Certified

Note: For this product, we focused on making something truly unique and 100% exclusive to the Adleta brand. This collection is packed with all the bells & whistles necessary to give it a competitive advantage in the SPC category. With the direct press EIR embossing and proprietary high-resolution imaging, Oak Select is designed to mimic the look and feel of the best high end wood floors in the market today. The 9” wide x 5’ long planks make it wider and longer than other products. Plus, the i4F locking system is one of the most advanced locking systems currently available in the market, and provides the installer with the ability to get the job done quickly. It also comes with one of the best and most dense IXPE pads in the industry to minimize deflection from the wider spans of the 9” wide planks.
