

Key Features for the Riviera Collection: 6 European White Oak SKUs

- The sliced 1.5mm nominal top veneer allows for a more unique and quality look.
- The veneer has been wire brushed, filled, and scraped with pillowed edges.
- All SKUs go through a distinctive staining process, which gives incredible depth of color with an extremely rich and outstanding visual.
- 3/8" x 6.5" x 72" Random length platform
- Multi-ply core construction.
- Nano Finish technology from PPG combined with this hardwood species makes for an extremely hard and scratch resistant floor.
- 10 Degree gloss level +/-5 mimics the look of an oil finished floor.
- All wood is CARB II compliant from sustainable forests and produced in an FSC Certified mill.
- Glue, Nail or Float.
