

## Key Features for the Tempest Collection: 6 American Hickory SKUs

- The combination of unique wire brush and fill technique, along with the hand mopped staining process gives added depth of color with an extremely rich and unique visual.
- Graining that lends itself to more of a Walnut/Hickory visual.
- 3/8" x 6.5" x 72" Random length platform
- 100% True *premium* hand-scrape. No machines are used in this scrape technique.
- Multi-ply core construction
- Nano Finish technology from PPG combined with this hardwood species makes for an extremely hard and scratch resistant floor.
- 15 Degree gloss level +/- 5.
- Janka test rate for Hickory is 1820.
- All wood is CARB II compliant from sustainable forests and produced in an FSC Certified mill.
- Glue, Nail or Float.
